ABOUT ME

I am a growth-oriented ICT professional specializing in Business Analysis and Full-Stack Development. I excel at bridging the gap between technical execution and business strategy, with a proven track record of building custom operational systems and participating in innovation challenges like EPIP. Recently certified in AI Fundamentals and Full-Stack Development, I leverage my background in retail and brand promotion to build user-centric software solutions.

EDUCATION

Durban University Of Technology

2023 - 2026

- Diploma in ICT: Business Analysis

Sacred Heart Secondary School

2022

- NSC Matric Certificate

WORK EXPERIENCE

Freelance Developer & Personal Branding Consultant

Feb 2026 - Till Date

- Designed and deployed a custom operational system for a commercial client, automating manual business processes and improving data accuracy.
- Leveraged React and TypeScript to build a responsive, maintainable codebase tailored to specific client requirements.
- Operate a successful personal branding service, translating technical expertise into high-impact professional documentation for clients.

Brand Promoter - Google Play

Feb 2026 - March 2026

- Drive high-volume user acquisition through strategic in-person activations, consistently meeting and exceeding targets for app installations and platform engagement.
- Act as a subject matter expert, translating complex Google Play features and ecosystem benefits into accessible, value-driven insights for diverse user demographics.

Cotton On - Sales Assistant

Nov 2025 - Feb 2026

- Delivered high-quality service in a high-volume retail environment, consistently meeting sales targets and brand standards.
 - Worked within a diverse team to maintain operational flow during peak periods, developing strong professional communication and conflict-resolution skills.
-

KEY CERTIFICATES & INNOVATION

EPIP Challenge | Durban University of Technology (DUT)

- Active participant in the Entrepreneurship, Projects, Innovation, and Partnerships initiative.
- Collaborating on innovative solutions that merge technical development with viable business models, focusing on solving local challenges through technology.

IBM AI Fundamentals

- Gained a deep understanding of AI models, Machine Learning, and the ethical implementation of AI in modern software development.

FNB Full Stack Development

- Mastered end-to-end web development, focusing on building secure, responsive, and performance-driven applications.
